---

### PROFILE SUMMARY

Software professional with 2 years of experience in software testing, seeking to transition into a front-end developer role. Possess a strong foundation in software development principles, coupled with a passion for creating intuitive and visually appealing user interfaces. Skilled in identifying software issues and debugging. Proven ability to adapt quickly to new technologies and environments.

### WORK EXPERIENCE

#### Associate - I Engineer

Capgemini | Dec 2021 - Oct 2023

- As a Testing Engineer played a crucial role in ensuring the quality and reliability of our software products.
- Will be responsible for designing, implementing, and executing test plans and test cases to identify defects and verify the functionality, performance, and usability of our software applications.
- Using JIRA to update bug reports and manage the Tracking process.

#### Full-Stack Developer Intern

Why Global Services | Jun 2024 - Present

- Gained hands-on knowledge in the MERN stack (MongoDB, Express.js, React, Node.js).
- Completed coursework and self-driven learning to strengthen foundational skills in web application development.

### SKILLS

- |                |             |          |
|----------------|-------------|----------|
| • TailWind CSS | • ReactJS   | • NodeJS |
| • BootStrap    | • ExpressJS | • GitHub |
| • JavaScript   | • MongoDB   | • Python |

## PROJECTS

### Multi-Vendor E-commerce site

Oct 2024 - Oct 2024

- The multi-vendor e-commerce project is a full-featured web application built with the MERN stack (MongoDB, Express, React, Node.js). It enables multiple vendors to register, manage, and sell products, allowing users to browse and purchase items.

### Coffee Shop Landing Page

Dec 2023 - Dec 2023

- This visually appealing and modern landing page is designed for a coffee shop. Built using **HTML, CSS and VS Code**, it showcases a clean, minimalist design with smooth navigation.

### QR Generator

Jun 2024 - Jun 2024

- This QR code generator is an interactive web application built using **HTML, CSS, and JavaScript**, developed in **Visual Studio Code**. The application uses JavaScript to handle QR code generation and integrates **an API** to fetch QR code data, ensuring accurate and up-to-date results.

### Sports Result Fetching using API

Jul 2024 - Jul 2024

- This web application provides real-time football match results using **HTML, CSS, and JavaScript**. The application fetches match data from a **football results API**, displaying match details in an intuitive and responsive layout.

GitHub-hosted portfolio showcasing a collection of personal projects, demonstrating expertise in HTML, CSS, JavaScript and MERN Stack.
