PROJECTS

Coffee Shop Landing Page   Dec 2023 - Dec 2023
- This visually appealing and modern landing page is designed for a coffee shop. Built using **HTML, CSS and VS Code**, it showcases a clean, minimalist design with smooth navigation.

QR Generator   Jun 2024 - Jun 2024
- This QR code generator is an interactive web application built using **HTML, CSS, and JavaScript**, developed in **Visual Studio Code**. The application uses JavaScript to handle QR code generation and integrates **an API** to fetch QR code data, ensuring accurate and up-to-date results.

Sports Result Fetching using API   Jul 2024 - Jul 2024
- This web application provides real-time football match results using **HTML, CSS, and JavaScript**. The application fetches match data from a **football results API**, displaying match details in an intuitive and responsive layout.

Shopping Website   Jul 2024 - Jul 2024
- This e-commerce website features a user-friendly and visually appealing design built with **HTML and CSS**. The site offers a seamless shopping experience with a clean layout, intuitive navigation, and responsive design.

GitHub-hosted portfolio showcasing a collection of personal projects, demonstrating expertise in HTML, CSS, JavaScript and web development.
